Art Unit: 3673

Figure 1 must be labeled as "prior art".

A substitute specification in proper idiomatic English and in compliance with 37 CFR 1.52(a) and (b) is required. The substitute specification filed must be accompanied by a statement that it contains no new matter.

A new, more descriptive title should be provided.

Claims 1-6 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The claims are generally narrative and indefinite, failing to conform with current U.S. practice. They appear to be a literal translation into English from a foreign document and are replete with grammatical and idiomatic errors.

From claim 1, line 10, it is not clear what "distance of the" means; in lines 7 and 10, "the" should be changed to -a-. From line 2 of claim 4, it is not clear what "bush around" means. In claim 6, line 2, the term "chips" is confusingly used.
